Dear WIC Vendor Business Owners:

September Vendor Forums

Additional vendor forums have been scheduled for you to meet with WIC staff to learn more about the changes in food instrument redemption beginning October 1, 2006. At each location, we will host one session. The forum will be most useful to business owners and employees who are involved in buying and setting prices for food. The information presented will be the same as we shared at the forums held in Sacramento, Fresno and Los Angeles during August.

Pre-registration is not required, but we encourage you to limit the number of attendees from your business to two or three because our meeting rooms have limited space. Check our website (www.wicworks.ca.gov) for any updates on these forums.

Forum Dates:	Time:	Location:
